

## **2009 FSAE – Camping at MIS**

FSAE Volunteers are welcome to camp in the Turn 2 Campground at MIS free of charge (this would normally be \$125 per week). RVs and other large vehicles must enter MIS through Gate 12 off of U.S. 12.

Each campsite has an electrical hookup for an RV, but the water is NOT potable at this time of year. We do not recommend hooking up to the water as you risk contaminating your holding tank.

MIS has no shower facilities and there are no bathroom facilities in the campground.

MIS has no pumping station for waste.

Campers may leave the site after hours (for dinner, etc.), but must notify the guard on duty. A phone number for the guard will be provided. Please be aware that the guard must make periodic rounds of the site, and each circuit takes ~1.5 hours. We will request an estimated schedule so campers can plan their entrance /exit around the guard's schedule. The only gate open after-hours is Gate 21. The guard will have to escort campers to and from the campgrounds.

With the lack of shower and bathroom facilities, camping without an RV is NOT recommended.

Any parties wishing to camp at MIS need to notify Kathleen McDonald ([katklauz@aol.com](mailto:katklauz@aol.com) or 248-601-3075) of the dates of your stay by May 5, 2009. The campgrounds are available Wednesday, May 13 – Saturday, May 16, 2009.
